SUMMARY

Final-year BS Data Science student (7th Semester) at COMSATS University Islamabad with hands-on experience in machine learning, statistical modeling, data visualization, and business intelligence. Proficient in Python, Scikit-learn, TensorFlow, R, Power BI, and SQL. Built 8+ end-to-end data science projects. Actively seeking internship opportunities in ML, data analytics, or research.

EDUCATION

Bachelor of Science in Data Science

COMSATS University Islamabad

Feb 2023 – Expected 2027

Islamabad, Pakistan

Relevant Coursework: Machine Learning · Deep Learning & ANN · Data Mining · Statistical Methods · Data Warehousing · Big Data Analytics · Business Intelligence · Data Visualization

TECHNICAL SKILLS

Languages: Python, R, SQL **Machine Learning:** Scikit-learn, TensorFlow, Regression, Classification, Clustering, NLP
Visualization: Power BI, Tableau, Matplotlib, Seaborn, Plotly, DAX **Data Engineering:** Pandas, NumPy, ETL Pipelines, EDA, Data Warehousing, OLAP
Tools & Cloud: AWS (Basic), Git, Jupyter Notebook, Google Colab, Excel **Techniques:** Feature Engineering, Cross-Validation, Hyperparameter Tuning, Time-Series Analysis, AUC-ROC

PROJECTS

LUMINA — AI-Driven Educational & Career Readiness Platform (FYP)

2025 – Present

COMSATS University Islamabad

- Developing an AI platform using NLP and collaborative filtering for personalized learning paths and career gap analysis

Heart Attack Risk Prediction Model

2025

R, Scikit-learn, Logistic Regression, Random Forest, SVM

- Trained classification models on 5,000+ patient records; evaluated using AUC-ROC and F1-score with feature selection, class imbalance handling, and hyperparameter tuning.

Mobile Price Prediction System

2024

Python, Scikit-learn, Feature Engineering

- Built multi-class classification pipeline (Decision Tree, KNN, Random Forest); achieved 92% accuracy with a deployed live inference dashboard.

Shopping Mall Sales Dashboard

2025

Power BI, Pandas, DAX, Excel

- Built end-to-end BI pipeline with DAX KPIs for revenue growth, footfall, and basket size; enabled drill-through filtering by branch, category, and time period.

PakWheels Vehicle Market Analysis

2024

Python, Pandas, Regression, Power BI

- Analyzed 10,000+ vehicle listings with regression modeling to quantify resale value influencers; delivered interactive Power BI dashboard for stakeholders.

Retail Store Sales Analysis

2025

Python, Pandas, Matplotlib, Seaborn

- Full EDA pipeline including outlier detection, trend decomposition, and regression-based revenue forecasting.

CERTIFICATIONS

Supervised ML: Regression & Classification — DeepLearning.AI & Stanford University, Coursera (Sep 2025)

Machine Learning with Python — IBM, Coursera (Jul 2025)

Intro to RAG — Duke University, Coursera (Aug 2025)
CCNA: Introduction to Networks — Cisco Networking Academy (Dec 2024)
AWS Concepts & Cloud Computing — DataCamp (Feb 2025)
Mastering Power BI | Get Started with ML — Microsoft Learn Student Ambassadors
Infyma AI Hackathon — INFYMA (Mar 2025)

LEADERSHIP & MEMBERSHIPS

Event Management Team Member — TEDx CUI 2024 & PSYWSC 2023 2023 – 2024
Coordinated events with 800+ attendees; built tracking systems for engagement, feedback, and logistics.
Memberships: IEEE Computer Society | Data Science Society (Active Member) | Google Developer Group
